

## WELCOME TO UPLAND BIRD HUNTING HISTORY IN THE HEARTLAND – IT BEGAN HERE

We have thousands of acres of the best pheasant hunting land in South Dakota. Reserved exclusively for our guests. Including, the exact location in Spink County where the first successful release of the Chinese Ringneck Pheasant occurred in 1908. Then, the very first sanctioned hunt was held in 1919. Today, our landowners have created an environment where wildlife still thrives in diverse habitat options such as; grasslands, CRP, shelter-belts, sloughs, creek bottoms, and food plots. With Dakota Pheasant Guide, you'll experience a good old-fashioned pheasant hunt in the beautiful wide-open spaces. *We invite you to discover how exhilarating hunting wild pheasants can truly be.* Possibilities include waterfowl, doves, predators or trophy archery whitetails. In addition, let us create your very own personalized visual legacy with a professionally shot and produced video.
